Writing about Chinese Cynical Realism, colours, style, expression, and chopped up photos. Hail de Spartacus! A movie call to Aktion! Inspired by the prohibited Soviet cinema, things pushed together - French communism. The neu-style architects incorporate moving image. Government algorithms bombard communities against censoring as it ensures against civic degeneration. The fetish of the aura no longer drives art. Hail mechanical reproduction! The pan-cultural shift! Art is isolated from the human condition, the hieroglyphics of nations. The contribution of Gestalt psychology and the cinema of stasis will liberate the audience from fragments of horror, pendulums and pitfalls. Old words and new meanings tell us what we think. The world is no longer made up of cinematic dreams that allow for gibbering actors to slap the Academy. Now that we have reached a higher state of consciousness.
